Animal welfare experts have responded furiously to the news that hundreds of military dogs have been put down by the Ministry of Defence in the past three years, arguing the animals are not simply "kit that can be decommissioned."

Some 288 dogs were put down by the MoD from January 2010 to June this year, according to The Sun, with animal rights campaigners blasting the deaths of the brave creatures.

Shocked and appalled by the news that so many working dogs have been killed by the MOD. I can't say I'm surprised at all. Disgusting.
